

Vulnerability Management (VM) Service

Satisnet have partnered with Tenable to bring you an extensive Vulnerability Management Managed Service at an affordable price.

Why manage VM internally when you can utilise Satisnet's 20+ years expertise to do it for a cost that is only marginally more than licencing cost. Let Satisnet optimise and automate this normally mundane task, and help you risk manage your cyber exposure.

Stop here for your full VM Valet Service

- Vulnerability management methodology developed by hands-on experts
- Scanner deployment, tuning, updates, and 24x7x365 support
- Recommended scanning policies (e.g. ISO27001, CIS, NIST, PCI)
- Workflow optimisation – asset prioritisation, scan schedules, and reporting
- **Managed service cost marginally more than licence standalone!**

Options

The VM Service comes in two options.

Tenable.io

Standard network vulnerability scanning with the Satisnet service wrap

Tenable.ep

As above, and also includes network, web application, cloud, DevOps, and AD scanning

VM Valet Parking

 **tenable.io**

 **tenable.ep**

VM Service Key Features

Feature	Description
Deploy scanner architecture	Deploy scanners in appropriate areas of the business
Management of architecture, heartbeat, and updates	Management of current applications, with updates, support, and general health of scanners
Assets managed	Group assets with tags and breakdown into regions – enhance current data to contextualise
Discovery scanning	Entire network scan to confirm all assets are being scanned and confirm asset count
Scan policies	Provide best practices around scan policies to include any compliance standards
Scan schedules	Create flows around scan schedules – ensure time zones are correct and meet compliance
Prioritise assets and hosts	What needs patching as a priority
Critical and exploitable vulnerabilities	Identify, prioritise, and recommend patches for existing vulnerabilities
Dashboards	Create dashboards to service owners with key information
Reports	Create scheduled reports for service owners

Pricing

You will not be surprised with any hidden extras. See a full price breakdown below.

Tenable.io (Per Annum)			Tenable.ep (Per Annum)		
Asset Count	Standalone Cost RRP	Managed Service Cost (All In)	Asset Count	Standalone Cost RRP	Managed Service Cost (All In)
65	£2,275	£3,393	65	£3,575	£5,382
100	£3,500	£5,220	100	£5,500	£8,280
200	£7,000	£10,440	200	£11,000	£16,560
300	£10,500	£15,660	300	£16,500	£24,840
400	£14,000	£20,880	400	£22,000	£33,120
500	£17,500	£26,100	500	£27,500	£41,400

Highlighting the full value of Satisnet's VM Service compared to a standalone purchase!
